

POSSIBILITIES!

POSSIBILITIES! is a unique initiative and collaboration between Ås international culture centre, Ås music and arts school and Håvarstein couture with designer Malin Håvarstein Nilsen.

In 2015 the project started with a group of women at Bjørnebekk asylum centre wanting to participate at our training program in sewing. The sewing course gives participants basic skills in sewing and also opportunity to sew a specific product, POSSIBILITIES tote bags. All the POSSIBILITIES bags are produced from recycled materials donated from people in the local area.

Possibilities! started in Ås in 2015, but extended to Oslo at the end of the year 2016. We believe that, in some time, POSSIBILITIES will be found around Norway and also spread to other parts of the world.

Project Possibility:

Our purpose is to support people in need to achieve a better future by creating a meaningful everyday with simple but useful tasks.
